### Melamine Washing Instructions

To assure the long life of Carlisle Melamine Dinnerware, proper handling is essential. Key points to follow when washing include:

1. Avoid using abrasives or copper/brass scouring pads when removing stains. A woven plastic pad or polyester brush (40113 or 40542) will yield the best results without dulling the lustrous finish.
2. Ask your chemical salesman for the proper solution formulated for use with melamine.
3. Do not use chlorine or chlorine-based products when attempting to remove stains.
4. For best results, use a high-alkaline base solution for regular dishwashing.
5. If unusual staining occurs, before placing trays in dishwasher, pre-soak melamine in a sodium perborate base solution such as Dip-It by Ecolab, Inc. or DeClare Plus by Diversify/Lever.

## POLYCARBONATE DINNERWARE
